THE above are *First Class, justly popular* paying companies. They invite favoring their condition and solicit business entirely on real merits. In point of solvency and honorable dealing, they have but few equals. They are founded upon the very best in the world—first class bonds and mortgages in New York and Brooklyn—

and have not, for the past ten years, depreciated and are every way more reliable and profitable than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable to depreciation, as the experience of the past ten years almost, if not entirely, valueless. And yet many companies entering the field of competition are liable to mislead by publishing partial

statements of their condition; and with-
plus on hand sufficient to reinsure the
risks, the above named companies always
over and above their capital *twice* the
most instances *four times*, needed for
all their risks. With such a foundation,
a condition, they claim the right to look
to the public for liberal patronage.

Policies issued without delay, and in
series of years taken at less rates than of
Mutual Companies; and a certainty give
uncertainty. All losses promptly adjust
New York Life Insurance

The dispatches received to-day keep up their well-earned character for contradiction and confusion. There seems, however, no doubt that some important movement is about to be instituted, but what its precise character is no body can tell.

Judicial.

We have but few additional returns. Grant county is reported at 3000 for Cole, and Dodge nearly the same number for Knowlton. Weyauwega, Waupaca county, gives Cole 163, Knowlton 85, Eldridge 5 Stevens Point gives Knowlton 220 majority. A report was received in Madison just as the cars left to-day that Calumet county had given Cole 1000 majority.

Editorial Correspondence.

MADISON, April 6, 1861. The joint committee on congressional apportionment reported yesterday morning in favor of the plan which places Rock with Dane, Columbia and Jefferson, and in committee of the whole in the senate, to-day, it was agreed to without debate. This arrangement makes one democratic district on the lake shore, and is generally satisfactory. The Journal, of this city, in attempting to convey the impression that the ire of those who denounced the gerrymander was groundless, and that there was never any intention to report it, is hardly fair. The committee did agree, on Friday, to report and recommend it, as I had assurance from four or five members of that committee, one of whom was the chairman, and had it not been for the strong outside opposition to it, that scheme would have been favorably reported, and perhaps adopted. I am assured, however, by the chairman of the committee, Dr. Cary, that it has been given up and that he will co-operate with the other members of the committee, in the passage of the bill reported. He has worked hard to obtain a plan which would give the republicans of his part of the state a show for the election of a congressman; but finding it would be geographically unfair, and perhaps endanger the republican ascendancy in one or two districts, to construct the apportionment as he desires, he has yielded the point and cordially supports the plan of the committee.

The bank bill was considered in the senate yesterday, and several amendments adopted, when it was passed. The assembly will probably concur, in most of the amendments, and it will then be for the people to say whether it shall become a law. The bill to donate all the swamp lands in the state to the counties in which they lie, was, after being defeated in the senate, reconsidered, on motion of Mr. Kelsey, and referred to a select committee. There is great danger that this bill will pass. It is a tempting bait to the counties interested, and their representatives, as it opens rich avenues for land sharking. Its passage will take fifty per cent of the swamp land fund income from the school fund, and destroys all hopes that hereafter any aid can be expected from that source for our schools. There are many reasons which could be urged why the passage of this bill is outrageously unjust towards those portions of the state where the land was bought up and settled long before the donations were made for drainage purposes. The principal are these—the state is a trustee to see that the draining of the land is accomplished, wherever needed in the state, and it cannot donate the trust itself, while the object of that trust remains unaccomplished. In the second place it will not require one half of the 2,000,000 acres of swamp lands to pay for the draining of them. In fact the income from the lands already sold is more than enough to accomplish the drainage as fast as needed, and this being the case the whole of the land or the fund raised by its sale, can remain undisposed of, while the interest will pay for the draining, so that what is proposed to be given away can and ought to be saved to form a school fund, the benefits of which can be shared in by the whole state. Whatever portion of this swamp land is not used to pay for drainage, belongs to the whole state, and not solely to that portion where the swamp lands are situated. But I have little hope that the swindle upon the state can be prevented, and I will say no more about it.

Happening into the assembly this afternoon, I was surprised to find that a proposition was before that body to give about 130,000 acres of the LaCrosse land grant to the Sugar River Valley Railroad Company, to aid in constructing a road from Portage City to Madison, and that there was a prospect of its passage. This road will pass through Albany and Brodhead in Green county, if built, and connect with the Illinois Central at Freeport. This appears to be a strange direction, (south-west instead of south-east), for a Wisconsin land grant road to run; it may be that it may be profitable to dispose of the grant for such a road, but if so, "I cannot see it" in that light. The most natural and proper route would be one directly towards an eastern market, and not around by Freeport to Chicago. Whether Janesville has any interest in this matter I leave it for her citizens to decide. This bill will probably pass the assembly to-day, and go to the senate, with a fair prospect of a passage there.

There is still doubt about the judicial question, both sides claiming it. It may be some time before it is finally ascertained who is elected, but I think the prospect of re-election of Judge Cole is favorable.

A child was recently born in Hempfield township, Westmoreland county, Pa., having but one eye, and that situated in the center of the forehead. There was no nose nor any appearance of nasal bones. The remainder of the body was well formed.

Judge Howe's Speech.

The Milwaukee Free Democrat, one of the truest, as it is the ablest republican paper in the state, speaks promptly and warmly in favor of the recent speech of Judge Howe in the U. S. senate. It says:

We have been favored with only brief extracts from the maiden speech of our new senator. From the evident tenor of the speech, however, as judged from the extracts and comments of various parties, we are inclined to the opinion that not only was the effort of Judge Howe able, high-toned and dignified in manner, but the matter of the speech was such as to meet the most hearty commendations of the people of the state which he represents.

It is not always possible to harmonize all parties in the selection of a representative. There are usually several candidates, and they not unfrequently assume to represent different sections and diverse factions or divisions of the majority party which is to decide upon their qualifications. Of course the successful candidate is elected. But when the successful candidate comes forward, and, sinking mere partisan, represents the true sentiments of the great majority of his constituents with comprehensiveness of views, justness of conception, readiness of purpose and dignity of action, how great reasons have their constituents to felicitate themselves upon the result.

Judge Howe is well aware of the prevailing sentiment in the state; and if reports have no more than justice, he has not been false in stating that he has not represented it with that ardor and earnestness which it requires, and that ability which he in an eminent degree possesses; and, in the name of the people of Wisconsin, we thank him—not for doing his duty, merely, but for doing it ably, fearlessly, at the right time!

MILITARY MOVEMENTS IN WASHINGTON.

The Washington telegraphic correspondent of the Cincinnati Gazette, under date of April 3, says—"Washington has presented a decidedly war-like appearance to-day. One company of sappers and miners left the city in the morning, while all the batteries of artillery were paraded through the streets. During the day a preparatory grand drill took place east of the capital. The rapid evolutions of the company as they darted through the streets, alarmed a lady, who believed war had commenced. The batteries of artillery will leave in the morning, and all the troops soon be withdrawn from here. People rejoice at this. Several volunteer companies were also out to-day."

GREAT DEMOCRATIC TRIUMPH!—The city of Brooklyn is one of the places the democracy are crowing over, because it has elected a democratic mayor by 4,500 majority. Its vote last fall was: Lincoln 15,260; fusion 19,875; fusion majority 4,615.

FREEPORT ALL RIGHT.—Francis W. Hance, a republican, has been elected mayor of Freeport. John H. Meece, republican, was elected marshal, and the common council stands 5 republicans to 1 democrat. This city has been claimed as democratic, but the republicans have literally "swept it."

THE STRAITS.—The Chicago Tribune of yesterday morning says:—"In another column of to-day's paper will be found a sketch of the trip of the propeller McQueen to the Straits of Mackinac. She proceeded to within two miles of the townships on Wausabance, where the ice was ten inches thick, covered with about twelve inches of snow. Should we have reasonably warm weather for a week to come, it is supposed that the straits will be opened by the 16th inst. Never before in the history of the west was the event looked for with greater anxiety."

FIRST OF THE SEASON.—The propeller Neptune passed up Milwaukee river Wednesday afternoon, being the first craft of the kind this season to go up.

GONE OUT.—The schooner Kate Richmond, of Buffalo, heavily laden, was towed down the river in Milwaukee Wednesday afternoon.

A DANGEROUS COMPOUND.—As our readers generally know, the use of kerosene oil as a substitute for the dangerous explosive compounds in lighting dwellings and offices is becoming general. Aside from the brilliancy of the flame procured from this substitute, its non-explosive qualities enter largely into the considerations for a change. A gentleman, whom the Chicago Tribune says is thoroughly posted as to what he asserts, furnishes that paper with the following statement:—"This city is filled with this so-called kerosene, and many explosions and accidents will happen. Here is a receipt which I will furnish gratis to any one wishing to know how to make the substitute for kerosene which will burn in kerosene lamps: Take one gallon Fusel oil, one gallon camphene, one gallon cheap coal oil, shake well and then stand forty-eight hours before using."

This mixture the Tribune says is an explosive and highly dangerous compound.—If so, and it is used, it must expose families who use it to most serious and frightful accidents, as the caution observed in using camphene, burning fluid, or other explosive mixtures, will be remitted in using what is believed to be kerosene.

JUDICIAL DISTRICTS.—The new judicial districts just organized in this state, are constituted as follows: The counties of Crawford, Bad Ax, Monroe, LaCrosse, Jackson and Clark comprise the sixth circuit, and the other counties which were in that circuit constitute the eleventh judicial circuit.

The counties of Marquette, Waushara, Waupaca and Shawano comprise the seventh circuit, and the remaining counties formerly in that circuit now comprise the twelfth judicial circuit.

The judges for these new circuits are to be appointed by the governor, and will hold their offices till January, 1863.

GRAND SWINDLE.—It appears that arrangements had been made by which several western cities were to be favored with a large amount of the Cataract Bank drafts, but the swindle was fortunately nipped in the bud at Cincinnati. Over \$100,000 of the worthless drafts is known to have been in existence.

Hood's majority for county judge in Dane county will reach 4,000.

WISCONSIN LEGISLATURE.

REPORTED FROM THE MADISON PAPERS.

MADISON, April 3d.

The SENATE assembled at 3 P. M., with enough members to do business.

A general communication was read from the attorney general in reply to a resolution of the senate asking if senators in odd numbered districts hold over notwithstanding a new apportionment of the state. He holds that the term for which they were elected cannot be disturbed.

The following bills were passed: To appropriate \$5000 for the purchase of stationery for the use of the state officers and the legislature.

For relief of holders of certain school land certificates.

To incorporate the Kenosha Gas Light and Coke Co.

To repeal chapter 40 of the general laws of 1857, providing for a geological survey of the state.

To repeal chapter 334 of the general laws of 1850, being an act to perfect the geological survey.

In the ASSEMBLY, no quorum could be obtained.

MADISON, April 4.

In the SENATE, we find nothing of general importance except the adoption of a joint resolution instructing the Bank Comptroller to make such calls on the banks of the state as in his judgment shall seem best, and sending the resolution passed some weeks since, directing him to refrain from calling on the banks until further directed by the legislature.

In the ASSEMBLY, a resolution calling on the superintendent of public property to report the amount of stationery given to reporters, was adopted.

Mr. Graham presented a remonstrance against any change in the boundary line of the city of Janesville.

From the Brandon (Minn.) Republican, March 24. **Destitution in Mississippi—Corn Riots Threatened!**

The board of police of this county met on Saturday last to adopt some measures to relieve the wants of the poor and destitute. It was proposed by some to appropriate the funds in the county treasury for that purpose, but the board has no authority for doing it, and they adjourned without any definite action, except to call a meeting of the citizens of the county on Saturday next, to take some measures of relief. It is said, has been detected in a daring attempt to swindle by means of forged Virginia bonds. It is believed that a large amount of forged bonds have been thrown upon the market. The parties implicated declare themselves Virginians. Investigation is progressing.

Marshal Rynders seized a clipper brig yesterday, on a charge of going into the slave trade, but the evidence is insufficient, and she will probably be released.

She returned from a China voyage about six weeks ago.

The Harriet Lane is lying in the bay, in consequence of information given to Capt. France by the collector, which may result in the seizure of other vessels bound to the coast of Africa.

Leading republican members express the opinion that an extra session of congress will soon be called.

CHARLESTON, April 5.

The final vote took place in the convention on the adoption of the permanent constitution of the southern confederacy.

Of the whole number of members of the convention (171) 96 voted for the constitution and 15 against it. 10 of them were absent.

There is nothing new as to Fort Sumter or other matters.

NEW YORK, April 5.

The Express says it is supposed, in well informed quarters, that Texas is the point where all the troops will be landed, and that they are sent out at the request of Gen. Houston, to repel Indians and Mexicans in that quarter.

LANE AND POMEROY were elected United States senators yesterday afternoon by a small majority.

We have had plenty of rain in this section.

TO-DAY'S REPORT. [Exclusively for the Daily Gazette.]

WASHINGTON, April 5.

B. W. Cheesman has been appointed assistant treasurer at San Francisco.

Thos. S. Turner is marshal for the eastern district of Virginia.

Chas. L. Loring is appointed a chief engineer in the navy.

The interior department has under consideration the organization of the land offices in the territories of Colorado, Nevada and Dakota.

NORFOLK, April 5.

The schooner Lucy R. Warren of Baltimore was seized in Hampton Roads to-day, for violation of the inspection laws.

NEW YORK, April 5.

Government chartered the Illinois wheel to go to sea under sealed orders to-day or Monday. Her mails and passengers for Europe go in the City of Baltimore.

The Tribune's Washington correspondence says no official intelligence has been received from Mexico since the supplies had been stopped; that the authorities at Mexico have been made that the Spanish government is not responsible for the demonstrations at San Domingo; and also, that no orders have been issued for the blockade of southern ports; Col. Springham's commission has a different purpose; that government is still without reliable information whether the reinforcement of Fort Pickens has been effected, and naturally very anxious as orders were sent weeks ago.

A dispatch from Mexico states that a large body of volunteers left that city to rally around the flag of the Union in Texas under Houston.

Washington correspondents assert that the president is daily receiving numerous telegraphic despatches from all parties of the country urging no surrender of any forts, and offering to volunteer in attempts at reinforcement. One man offers to reinforce Sumter at ten days notice for five thousand dollars.

Gov. Curtin of Pa. had a long interview with Gen. Scott and Secretary Cameron.—It is rumored that Pennsylvania will immediately assume a war footing.

It is not true that the southern commissioners have taken a house in Washington. It is well understood that the length of their sojourn here will be dependent on circumstances. Much alarm exists here on account of the military preparations of the government which preserves entire silence.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE.

Office in Union Passenger Depot.

LAST NIGHT'S REPORT.

[Condensed from the Milwaukee Sentinel.]

NEW YORK, April 5.

The government has chartered the steamers Baltic and Ariel, and they will carry troops under sealed orders. The Baltic will carry Capt. Barry's company of flying artillery of ninety men, and the Ariel seven or eight companies of infantry and marines. They will sail on Sunday.

The steamship Atlantic has also been chartered, and cleared for Brazos this P. M., with provisions and stores, the property of the government.

The frigate Powhatan goes to sea to-morrow morning, fully equipped and provisioned, and will probably take three companies of troops.

The impression at the navy yard is that Sumter and Pickens are both to be reinforced.

A company of one hundred men on Governor's Island have received marching orders, and others will speedily follow.

There are over 2500 troops at the different stations in the port.

The Post says it is rumored that the government will send troops to England and France, have returned, and report that both will set their faces against the southern confederacy, and in no manner recognize or assist it, and that the president and cabinet are determined to take immediate and vigorous measures to enforce existing laws at all hazards.

The Commercial says a committee of leading Virginia politicians have had an interview with the president and secretary of state, and were assured most positively that the federal government will not recognize the southern confederacy, and should not attempt to collect the revenue, for the simple reason that congress had withheld the power from him to do it.

A special dispatch to the Post says that rumors say the Pawnee goes to Charleston. The excitement hourly grows more intense. All sorts of conjectures are afloat as to the point where the first blow will fall.

A leading business house on Wall street, it is said, has been detected in a daring attempt to swindle by means of forged Virginia bonds. It is believed that a large amount of forged bonds have been thrown upon the market. The parties implicated declare themselves Virginians. Investigation is progressing.

Marshal Rynders seized a clipper brig yesterday, on a charge of going into the slave trade, but the evidence is insufficient, and she will probably be released.

She returned from a China voyage about six weeks ago.

The Harriet Lane is lying in the bay, in consequence of information given to Capt. France by the collector, which may result in the seizure of other vessels bound to the coast of Africa.

Advice from Jamaica to the 23d ult., state that Prince Alfred received a royal reception.

BARBADOS.—Preparations are making to give him a magnificent ball at Jamaica.

RICHMOND, April 5.

The convention adopted the following resolution, deeply deploring the distracted condition of the country, lamenting wrongs that have compelled some states to dissolve connection with the federal government, but sensible of the blessings of the Union, impressed with its importance to peace, prosperity and progress to the people, we earnestly desire an adjustment by which the Union may be re-established in its integrity, and that peace and prosperity may be restored throughout the land.

NEW YORK, April 6.

The Times' Washington despatch says that Dr. Fisher of Annapolis has been appointed marshal of eastern Virginia.

The same authority says a despatch received from a responsible person in Charleston, states that Gen. Beauregard has left for Morris Island. He is reported to have said that Major Anderson now had but two alternatives—to evacuate Fort Sumter in 48 hours, or suffer bombardment.

The Times' despatch also says the southern commissioners express the belief that a peaceful policy will prevail, but if the policy of the federal government is an adjustment of the federal laws, the seceded states are ready to resist to the bitter end.

CHARLESTON, April 6.

Special to the Herald—War is expected within 24 hours. Every man is ordered on duty. Excitement intense.

THE MARKETS.

NEW YORK, April 6.

Flour dull. Super state 5.40/55; extra state 5.25/30; super western 5.40/5.50; common to medium extra western 5.65/5.75. Wheat market. Flour dull. Demand. Sales 7000 bushels 1.25/1.28 good to choice No. 1 Chicago spring; 1.28 Raccoe spring; 1.29/1.32 Milwaukee club; 1.38 winter red western.

MORE OF THE FUGITIVE SLAVE ARREST.—Yesterday afternoon, word was brought to the south district police station that the negroes charge force had surrounded the house of Hays, at the corner of Wells and Taylor sts., with the determination of killing him. A posse of six men was immediately sent to the spot with instructions to bring the negro to the army for better security. Word was also sent to the north and west stations for reinforcements. The posse found the house of Hays surrounded by a crowd of between two and three hundred negroes, armed with clubs, knives, pistols, shot guns, and other utensils of war. They had obtained a ladder and were endeavoring to get into the house through an upper window, in which they would have soon succeeded had not the police arrived to interfere with their designs. The infuriated mob was soon scattered by the police. Only a few, more courageous than the rest, lingered near the house. The negro Hays was then brought down and conducted towards the army, the mob following at a respectable distance. On the way, the posse were met by reinforcements from the north and west divisions, and with this additional force, seven of the ringleaders in the riot—six males and one female—were arrested. They were brought before Justice Akin, who discharged the female, and admitted the others to special bail, to appear on Friday next. They gave the following names: Franklin Johnson, John Barriday, Abraham Thompson, Chas. Johnson, William Lee.

The police conveying the man Hays to the army, the mob followed and made desperate charges upon them, in their attempts to get Hays away from them, and kill him, and they were only kept away by the vigorous use of the police clubs.

During one of these charges, a negro who was prominent in his efforts, received a blow which would have felled an ox, directly across the forehead. He never winked under this summary chastisement, but coolly looked up and asked the policeman what he was hitting him for.—Chicago Journal.

FIRE PREVENTED BY A DOG.—Last night a lady, residing on N. Division street, soon after retiring to her chamber was awakened by the scratching of a favorite spaniel's feet upon the floor, together with a low, eager whine. As she opened the door to see what the dog instead of entering, caught the skirt of her dress in his teeth, and pulled her towards the doorway. She went back into her room, the dog, meanwhile, constantly clinging to her dress. Following him down stairs, through the dining room and into the kitchen; she was amazed to find the latter filled with smoke, and on looking for the cause, found that the carpet was on fire, having undoubtedly been lighted by a spark from the stove. The large hole was already burned, and the circle was rapidly extending towards the curtains of a lounge which stood at the side of the room. The lady snatched a kettle from the stove and extinguished it without much difficulty, the spaniel, meanwhile, whisking about in the smoke like an animated "cat-wheel."

Buffalo Commercial.

A YOUNG GIRL ENTICED TO A HOUSE OF PROSTITUTION.—A girl about fifteen years of age, of very pleasing appearance, was taken out of a house of prostitution last night by officer Nelson and conveyed to the Army. She was brought before Justice Davis this morning and upon being questioned relative to her history, said that her name was Kate Little. She got aboard the cars on the Michigan Southern road yesterday and was with the inmates of the house to White Pigeon. In the cars she was accosted by a specious villain, who by flattering promises prevailed upon her to come to Chicago. They arrived here yesterday noon, obtained dinner at a hotel, and in the afternoon went to walk. In the course of the walk the scoundrel took her to a house of ill-fame on Griswold street, kept by the notorious Madame Herick. Under pretence of seeing some friends and showing her some curiosities, she was induced to go to her room, and was left there, promising to return in the evening.

The keeper of the house questioned the girl and found that she was unused to the ways of the world. With a sense of honor and magnanimity, unusual in view of the reward she might naturally expect from the man, who was not unknown to her in other instances of a similar nature, and the character of her avocation, she lodged information with the police without delay, and the prompt action of the police resulted in the young girl from a seduction, and life of misery and dishonor, it is to be hoped.

The court after hearing the surroundings of the case gave the girl's severe reprimand for her folly and discharged her upon her promise to do better and return home. She has learned a useful lesson by a rather bitter experience, which should serve as a warning to thousands of others not to place confidence in strangers in any event. The road to ruin is a short and easy one. Those only escape who avoid the smallest temptation.—Chicago Journal.

The Republic of Dominica, in the island of Hayti, which the Spanish are said to have taken possession of, comprises about three-fifths of the territory of the island.

It is originally a Spanish colony. It has about 130,000 inhabitants, one-tenth of whom pretend to be whites.

Green peas—\$6 per bushel—from the south and tomatoes from Bermuda, are in the New York market.

DIED.

At Sandusky, Seneca county, Wisconsin, March 20th, JOSHUA HOLMES, Esq., youngest son of Judge William Holmes, of this city.

At the time of his death Mr. Holmes was forty-seven years of age, he emigrated to this place with his father, from the state of Ohio, in 1830, and for twenty years resided in Janesville in the uninterrupted enjoyment of the respect and confidence of all who had the pleasure of an acquaintance with him. He leaves a wife, and seven children, a father and mother, brothers and sisters, all mourning the unexpected departure of this affectionate husband, a kind and indulgent father, a worthy and beloved brother and friend. Their loss is his grief. (C.)

NEW ADVERTISEMENTS.

Action of the Milwaukee Banks.

The Milwaukee banks yesterday decided to refuse to receive on deposit or pay out the bills of the following banks:

- Bank of Albany,
- Appleton,
- Beloit Savings Bank,
- Chippewa Bank,
- Citizens' Bank,
- Clark County Bank,
- Farmers' Bank, Two Rivers,
- Laborers' Bank,
- Mechanics' Bank,
- North-Western Bank,
- Oconto County Bank,
- Osburn Bank,
- Portage County Bank,
- Reedsburg Bank,
- St. Croix River Bank,
- Traders' Bank,
- Wood County Bank,
- Hall & Brothers' Bank,
- Katanyan Bank.

The following resolution was also adopted:

Resolved, That we will reinstate, as currency, the bills of each of the above banks as may within thirty days from this date make their securities in the hands of the Comptroller equivalent in value, in New York City, to ninety-five per cent of their circulation.

FOUND—A watch was found about forty rods west of the Galena railroad ticket office. Any person calling on Martin Brophy west of the said place, and giving full particulars and paying the cost of advertising, can have it. Call on Sundays in the afternoon. **MARTIN BROPHY.**

A PLEASANT VISIT—We yesterday had a call from George Kemp, formerly of this city. George is accompanied by a wife, as he ought to have been long ago, and finds many old friends to welcome and congratulate him.

PAMET BANK—A despatch from Springfield, Ills., dated the 3d, says that the state auditor announces that the Pamet Bank had that day given ample security for all of its notes in circulation.

THE GENTLE SPRING—"The ethereal mildness" has come.—*Madison Argus.* It has, ha! We thought an "ethereal wetness" was prevailing about these days, and a general gloominess suggestive of unfavorable election returns.

A COUNTRYMAN'S EXPERIENCE—A friend who lives in one of the rural villages in Green county, yesterday related to us his experience as a "bill holder." He had by some rare good luck obtained two months ago a 20 on the Arctic Bank. The figures were large, handsome and "stuck out" like a big nose on a small face. Moreover, the "denomination" was respectable, in fact rather imposing. With a strong feeling of satisfaction, he exhibited the evidence of his wealth to his wife, who advised him to store it away against a rainy day, or as a contingent provision for some of the numerous wants of a not over-well-supplied household. This advice, in a spirit of conjugal affection, was accepted, and the XX was safely deposited in a secure apartment of a wallet better filled with "papers of no value to any one but the owner," than with coin or convertible currency. It was examined daily, its beauties growing brighter, and its figures more luminous and resplendent after every examination, and a frequent accidental display of it increasing the respectability of its happy possessor among his neighbors. But all good things are liable to reverse, and our friend one day suddenly became conscious that "Arctic was down." Away he went to a bank, exchanged the well-watched prize for \$18 of "current funds," happy in the thought that some rich bank had taken off his hands the risk of further loss. In a day or two, however, his "current funds" followed the Arctic, and he made another exchange for good money. This time he was safe; but alas, his "good money" was soon no better than his former valuable evidences of riches. Still another exchange was made; another depreciation and another exchange followed; and this course was followed until he declares he has lost the original \$20, and added \$16 more in making the attempt to keep up with the fluctuating value of his money.

The sequel to this history is that our rural friend is in favor of a "hard" currency; but don't want his name published, lest his friends will think he is a little "green" about banking matters.

DE GROOT & Ryan's Dramatic Company open at Lappin's Hall on Tuesday evening, April 9th. Mrs. Kate Denin Ryan is with them.

HEAVY SUFFERERS—Our sympathies have been warmly excited for a certain class of sufferers by the recent depreciation of our currency. More than one man who couldn't pay a dollar in the morning, and "dead broke," was swearing in the afternoon at the banks, or perhaps taking "a rip" at the republican party, because he had a pocket book full of discredited bills.—Poor fellows!

CHEAP PROPERTY—We call attention to the advertisement of S. G. Bailey; the property is pleasantly located and cheap. Give him a call.

PLYMOUTH—A report reaches us to-day that Plymouth has given Cole 80 majority.

BELOIT—The majority for Knowlton in the town of Beloit is said to be 79.

JOB PRINTING!
